PNEUMATIC HEIGHT ADJUSTABLE OPHTHALMIC TABLE

**F.I.S.O.**  
Fabbrica Italiana Strumenti Oftalmici

**MISTRAL** is an adjustable in height ophthalmic table. It is provided with a gas spring pneumatic system, whose lifting force is properly selected in order to counterbalance the weight of the instruments, making height adjustment simple and easy.

**MISTRAL** is now equipped with a new base, unique in its concept, because equipped with self-blocking wheels.

**MISTRAL**'s column can be easily mounted in either central or lateral position, with no difference in price.

**MISTRAL** can come with a wide range of either fixed or sliding table tops, for either one or two instruments, to fully satisfy any needs.

**MISTRAL** the best table for ophthalmic instruments at the best price.
