Vorwort | Intro | Prefacio | Préface

Albert Heiss gründete im Jahre 1921 die Firma in Tuttlingen. Seine in den Wanderjahren in Berlin und Heidelberg erworbenen Fachkenntnisse bewogen ihn, sich auf die Herstellung von Instrumenten für die Augenchirurgie zu spezialisieren.

Durch seine hervorragenden handwerklichen Qualitätserzeugnisse erlangte die Firma recht bald einen Weltruf auf dem Fachgebiet der Ophthalmologie.
Aus kleinsten Anfängen entwickelte sich schnell eine dynamische und expandierende Firma.
(Auszug aus dem Katalog von 1966)

Albert Heiss verstarb im Jahre 1964. Die Firma befindet sich nun mittlerweile seit vier Generationen im Familienbesitz, und wird seit 2004 durch seinen Urenkel Stefan Koenig weitergeführt.

In 1921 Albert Heiss established the firm in Tuttlingen. The special knowlegdes obtained during the travelling years in Berlin and Heidelberg induced him to specialize in the manufacture of instruments for the ophthalmic surgery.

By its outstanding products of best craftsmanship the firm soon gained worldwide reputation in the field of ophthalmology.
Beginning in a small way it developed rapidly to a dynamic and expanding company.
(Extract of the 1966 general catalogue)

Albert Heiss died in 1964. The company is meanwhile family owned in the fourth Generation, and is managed since 2004 by his great-grandson Stefan Koenig.

En 1921, Albert Heiss fundó su firma en Tuttlingen. Gracias a sus conocimientos profesionales adquiridos en Berlín y Heidelberg durante los años de viaje de oficial, se decidió a especializarse en la fabricación de instrumentos quirúrgicos para la oftalmología.

Por la calidad superior de sus productos de artesano, dentro de poco tiempo la empresa gozó de reputación mundial en el dominio de la oftalmología.
De un comienzo pequeño resulto una empresa dinamica y progresiva.
(El resumen por el catalogo de 1966)

En 1964 Albert Heiss murió. La empresa esta entretanto mas de cuatro generaciónes en la mano de la familia. Desde 2004 el bisnieto Stefan Koenig dirige la empresa.

En 1921 Albert Heiss créa son entreprise dans la ville de Tuttlingen.
Les connaissances spécifiques acquises lors de ses années de voyage à Berlin et Heidelberg, l'ont incité à se spécialiser dans la fabrication d'instruments de chirurgie ophtalmologiques.

Par la qualité exceptionelle de ses produits façonnés dans les règles da l'art de la fabrication des instruments, l'entreprise gagne rapidement une réputation mondiale dans le domaine très spécialisé de L'ophtalmologie.

Petit entreprise au tout début, elle devient très vite une entreprise dynamique et continue de prendre de l'expansion.
(Extrait de l'édition du catalogue de 1966)

Albert Heiss meurt en 1964. C'est donc aujourd'hui la quatrième génération de la famille d'Albert Heiss qui assure la continuité de l'entreprise, dirigée actuellement par son arrière petit fils Stefan Koenig.

Seit der Firmengründung fokussiert sich die Firma Albert Heiss auf die Herstellung und den Vertrieb von hochwertigsten chirurgischen Instrumenten in der Augenheilkunde.

Über 1.500 verschiedene Artikel werden heute erfolgreich durch unser weltweites Vertriebsnetz von ausgesuchten Fachhändlern vertrieben.
Strenge Qualitätsmaßstäbe und die kontinuierliche Optimierung der Organisations- und Produktionsprozesse gewährleisten Produkte die sich im täglichen Einsatz bewähren.

In unserem Handeln und unseren ganzen Aktivitäten stehen Sie als Kunde immer im Mittelpunkt. Service für unsere Kunden ist für uns nicht nur ein Marketingargument und Pflichterfüllung sondern eine Selbstverständlichkeit.

Wir führen ein bestens sortiertes Lager mit allen Albert Heiss Instrumenten. So können wir unsere Kunden direkt und ohne Verzögerung beliefern.

Since the time the company Albert Heiss was founded we are focusing our activities onto the manufacturing and distribution of high quality surgical instruments for ophthalmology.

Today we are selling more than 1.500 different articles successfully through our world wide network of selected distributors.
High quality standards and continuously optimised organisation and production processes guarantee products which prove worthwhile in the daily work.

You as our customers are always in centre of our actions and our activities. Service to our customers is for us not only a marketing argument and fulfilment of our duties, it is a matter of course.

We keep a well selected stock of all Albert Heiss instruments. This allows us to supply our instruments direct and without any delay to our customers.

Desde la fundación el Firma Albert Heiss nos concentramos en la producción y distribución de instrumentos ophthalmologicos de calidad alta.

Mas de 1500 instrumentos diferentes son distribuidos con éxito en todo el mundo por una red de distributores escogidos. Normas strictas de calidad y un perfeccionamento continuido en el procedimiento de la organización y la producción garantizan productos que dan buen resultado en el uso diario.

Usted como nuestro cliente siembre van estar en el centro de nuestras acciónes y de todas nuestras actividades. Hacer un buen servicio no es solo un argumento de marketing o un cumplimiento del deber, para nosotros es mas, es una evidencia de servir a nuestros clientes.

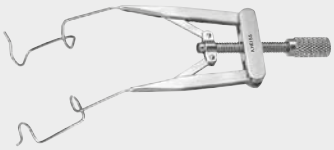

Llevamos un almacen muí bien surtido con todos los instrumentos de Albert Heiss. Asi tenemos la posibilidad de servir a nuestros clientes directos y sin atraso.

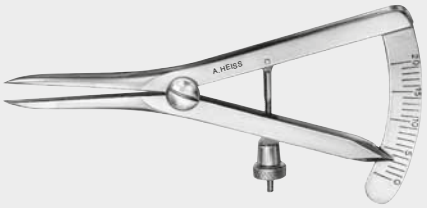

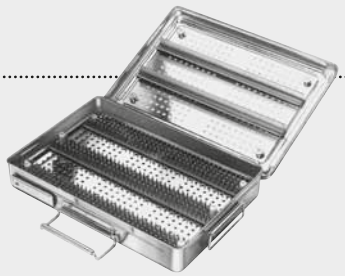

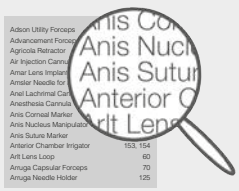

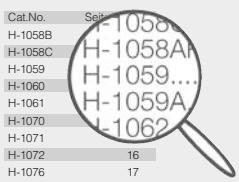

Depuis la création de l'entreprise Albert Heiss, nous continuons à concentrer notre activité sur la fabrication et la distribution d'instruments de chirurgie ophtalmologiques de qualité supérieure.

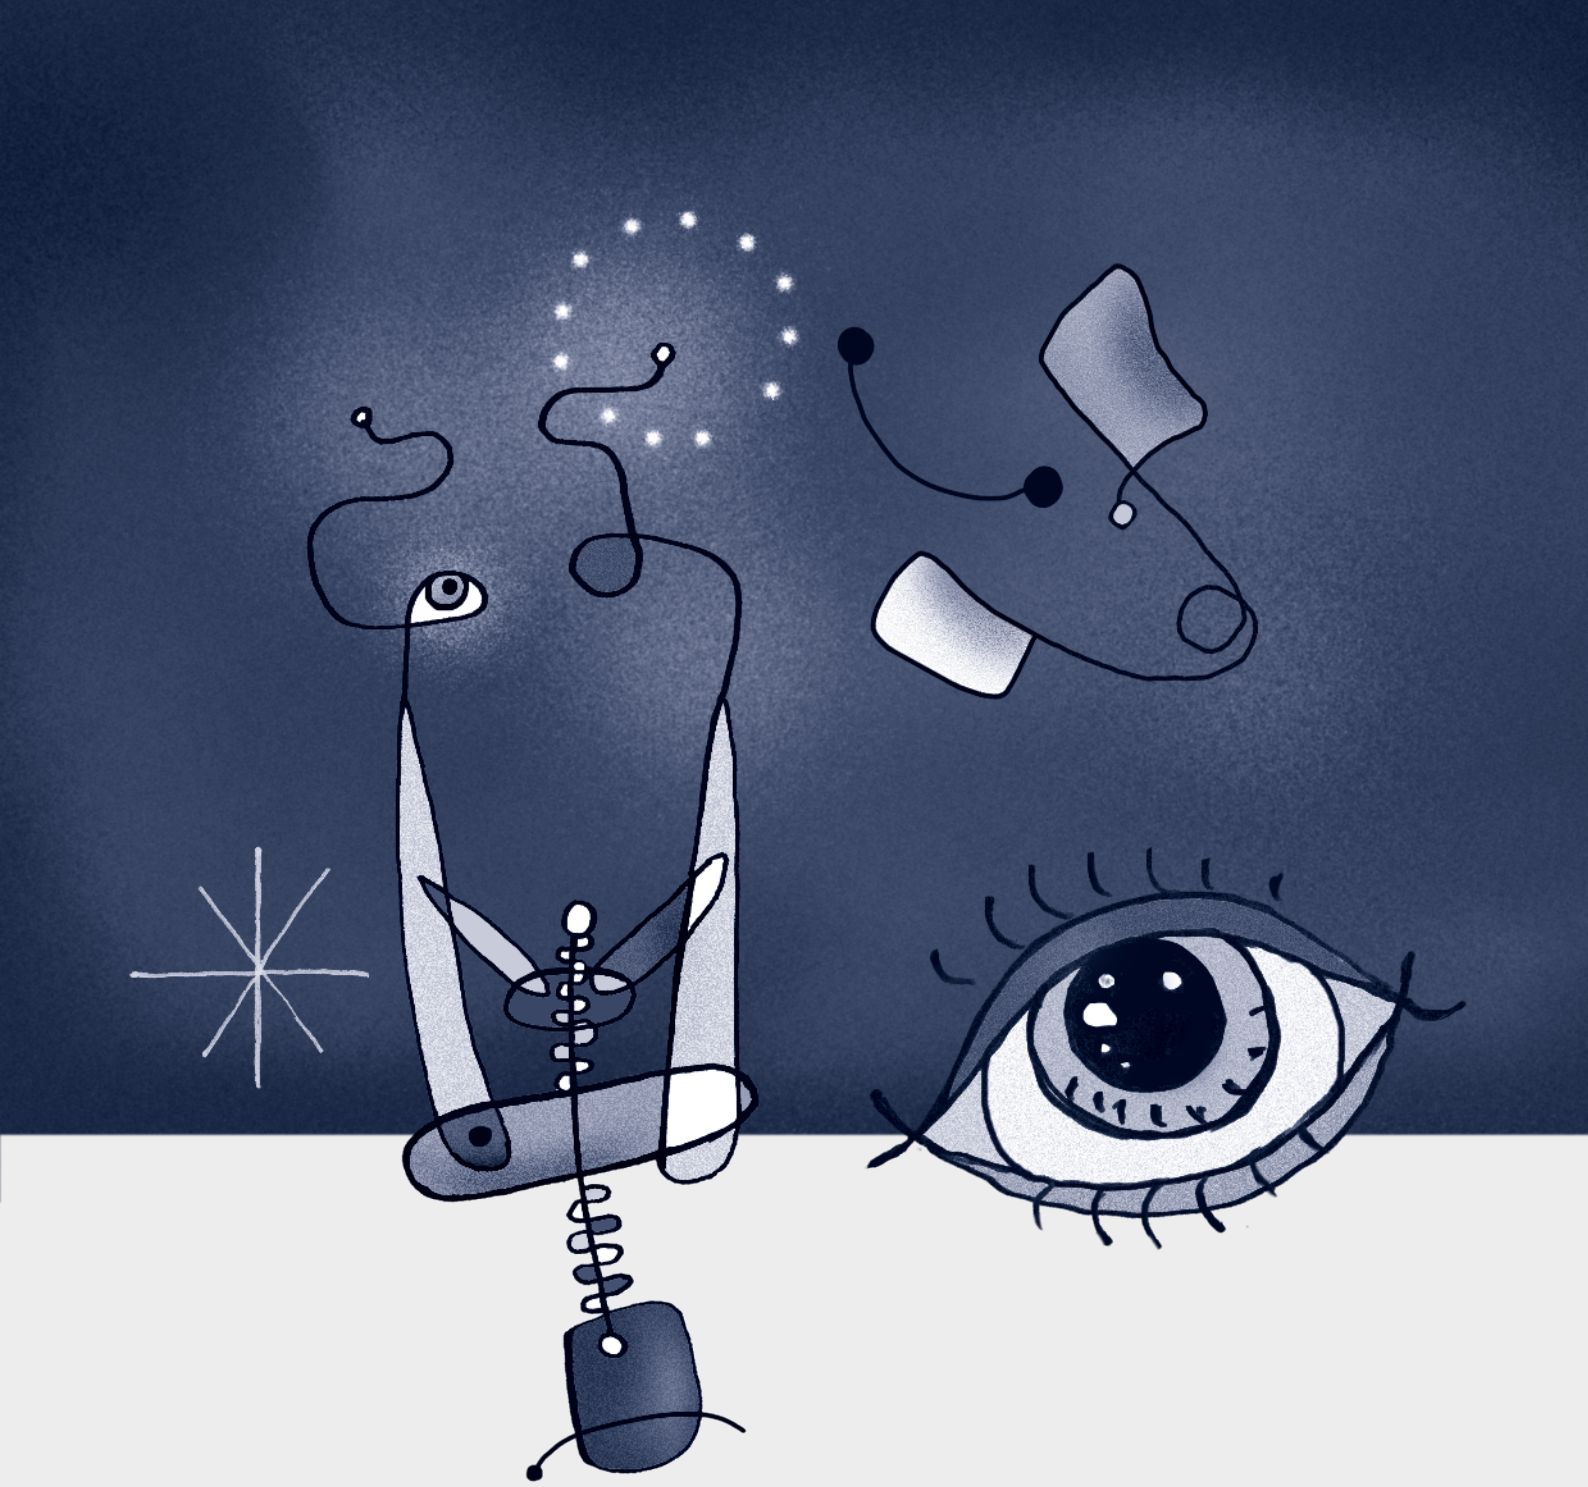

Aujourd'hui nous vendons avec succès plus de 1500 instruments différents dans le monde entier, par l'intermédiaire d'un réseau sélectionné de distributeurs.
Notre standard de qualité supérieure, notre organisation continuellement optimisée et nos méthodes de production dotent nos produits une garantie qui est démontrée dans leur utilisation au quotidien.
Chers clients, vous êtes au centre de nos actions et de nos activités, le service à nos clients est pour nous plus qu'un argument marketing ou que le simple accomplissement de nos obligations, c'est une action naturelle.

Nous gardons toujours en stock un choix sélectionné de la totalité des instruments Albert Heiss. Cela nous permet d'offrir nos instruments directement et sans aucun délai à nos clients.

1/1

Der einstellbare Pendelmarkierer wurde speziell zur Achsmarkierung der Hornhaut bei Operationen zur Korrektur einer Hornhautverkrümmung (Astigmatismus) entwickelt.
Zur Implantation torischer Hinterkammer IOL, phaker torischer IOL, LASIK, usw. kann mit dem Pendelmarkierer die Zylinderachse der Hornhaut präoperativ exakt markiert werden.

Optimale Ergebnisse – leichte Handhabung

Durch die präzise Ausrichtung der Eingriffsachse wird eine exakte rotatorische Positionierung der IOL im Auge möglich.
Überdecken die Markierungen auf der Kornea exakt die Linien auf der implantierten IOL Optik, ist ein optimales refraktives Resultat des operativen Eingriffs erreicht.

Zur Präoperativen Markierung der Zylinder- bzw. der Eingriffsachse fixiert der aufrecht sitzende Patient einen Punkt in der Ferne.
Zur Markierung der Achse den Stempel zentriert auf die Kornea aufsetzen.
Durch den Pendel bleibt der voreingestellte Gradzahl des Stempels während der gesamten Anwendung erhalten.

The adjustable Pendulum Marker was especially developed for marking axes on the cornea during surgical procedures to correct astigmatism, such as: The implantation of a toric posterior chamber IOL or a toric phakic IOL, LASIK, etc. With the Pendulum Marker you can preoperatively mark the cylinder axis on the cornea to ensure precise positioning of toric IOLs.

Optimal results – simple application

When the markings on the cornea align exactly with the lines on the implanted IOL, an optimal refractive result of the surgical procedure is attained.

For the preoperative marking of the axis the patient is focusing a far point in a upright position.
Place the stamp on the centre of the cornea.

The pendulum always ensures the correct degree.
