ELECTRICAL HEIGHT ADJUSTABLE OPHTHALMIC TABLE

**F.I.S.O.**

Fabbrica Italiana Strumenti Oftalmici

**NEW HERCULES** is an electrical height adjustable ophthalmic table, it is derived from the glorious HERCULES table that has had an outstanding success for eight years all over the world.

**NEW HERCULES** has been improved in both aesthetics and mechanics, and it is now manufactured applying the same process used in car manufacturing.

**Features:**

The **BASE** is made of reinforced and bead steel. It is equipped with invisible self-blocking wheels and it enables to easily mount the column in either central or lateral position, without any price difference.

The **COLUMN** has a telescopic movement which is operated by a powerful electrical motor equipped with 12 ball bearings. This system is very silent and guarantees long life.

**NEW HERCULES** can come with a wide range of either fixed or sliding table tops, for either one or two instruments, to fully satisfy any needs.

**NEW HERCULES** can be put into motion also by a manual control or by a foot switch control.

**NEW HERCULES** is guaranteed for two years.
